Following a review of the report submitted and pursuant to Section 3 (b) of the Environmental Management (Impact Assessment and Audit) (Amendment) Regulations, 2019, it has been established that the proposed **Construction And Operation Of A Mini-Dairy Project Comprising Of A Prefabricated Container Equipped With An Atm Machine, Mini-Dairy batch Pasteurizer-500litres, Milk Dispenser, Milk Stirrer Milk Cooling Tank-500 Litres, Milk Pump, Cooling Tank Chiller, Back Up Generator, Alcohol Gun, Lactometer And A Digital Scale On Plot Lr No. 12650 & 12651/Kjd/Dalalekutuk In Blue Sky Estate Within Kajiado Township, Kajiado County.** is not likely to have any significant adverse Environmental Impact (s) and it is hereby exempted from undertaking a Comprehensive Project Report.

The Proposed project is hereby approved to proceed with the following conditions:

The Proponent SHALL;

1. The proponent shall ensure that the site is not used as a milk collection centre. The milk meant for processing shall be collected at the Group's other collection centres and delivered to the Mini-Dairy in specific quantities for processing.
2. Ensure that the proposed activity strictly conforms to the building plans as approved by the County Government of Kajiado;

3. Comply with the relevant principal laws, by-laws and guidelines issued for development of such a project within the jurisdiction of the Kajiado County Government; Ministry of Lands, Housing and Urban Development; Ministry of Transport and Infrastructure; Ministry of Health, National Construction Authority; Directorate of Occupational Health and Safety Services and other relevant Authorities;
4. Ensure that the proposed development will not encroach on way-leaves and road reserves;
5. Ensure that the excavated areas are backfilled and restored to a state equivalent to the original state or improved;
6. Ensure that all excavated material and debris is collected, re-used and where need be; disposed off as per the Environmental Management and Coordination (Waste Management) Regulations, 2006;
7. Ensure strict adherence to the provisions of the Environmental Management and Coordination (Air Quality) Regulations, 2014;
8. Ensure strict adherence to the provisions of Environmental Management and Coordination (Noise and Excessive Vibration Pollution Control) Regulations, 2009;
9. Ensure that, pursuant to regulation 6 (c) of the Water Quality Regulations, 2006, any wetland and/or riparian is protected by ensuring that **NO** development activity is undertaken within the full width of the stream to a minimum of six (6) meters and a maximum of 30 meters on either side based on the highest recorded flood levels;
10. Put in place an appropriate traffic management plan that will ensure that there will be no obstruction of vehicle and human traffic during the entire period of the project implementation;
11. Ensure strict adherence to the Occupational Safety and Health Act (OSHA), 2007;
12. Ensure that construction workers are provided with adequate personal protection equipment (PPE), sanitary facilities as well as adequate training.
13. Ensure that construction activities are undertaken during the day (and not at night) between 0800Hrs and 1800Hrs; and on Saturday between 0800Hrs to 1300Hrs. No work shall be undertaken on Sundays; and that transportation of construction material to and from site is undertaken during Weekdays and Saturdays only during the hours specified herein;
14. Give emphasis to the control of Dust, Noise, Vibration and Occupational Hazards;
15. Give appropriate notification to the neighbors to limit nuisance caused;

The above conditions will ensure Environmentally Sustainable Development and **MUST** be
